## NOTES TO THE ABOVE:

- 1. The abridged financial statements of the Group are audited by the newly appointed auditors, Messrs. PricewaterhouseCoopers, Chartered Accountants and have been prepared using the same accounting policies and methods adopted in the financial statements for year ended 30 June 2018.
- 2. The accounts for FY17 have been restated mainly due to the change in effective tax rate from 15% to 17% resulting from the recognition of Corporate Social Responsibility (CSR) as a tax and the treatment of the sales and leaseback of the Invest Hotel Scheme (IHS) rooms at Long Beach as finance leases.

These financial statements are issued pursuant to Listing Rule 12.14 and the Securities Act 2005.

last year to 19.0% and EBITDA grew by 32% on FY17 to Rs 1.3 billion. With a higher depreciation charge attributable to Kanuhura and La Pirogue post renovation, the Group showed a return to profitability, posting a profit after tax of Rs 194 million against a loss after tax position of Rs 112 million last year.

## Outlook

Compared to same date last year, forward bookings currently show a growth in revenues for our resorts in Mauritius and an encouraging increase in occupancy for Kanuhura. Provided trading conditions do not deteriorate, management views these trends as positive contributing factors towards the overall performance of the current financial year.

## COMMENTS ON THE RESULTS

## Financial results

Group revenue for the year reached Rs 6.7 billion, a 12% increase over the prior year. This increase is mainly attributable to a commendable 18% growth in the average daily rate whilst the occupancy rate was maintained at 75%, only 2 percentage points below prior year. During the year all resorts showed a significant progression in revenue, especially Long Beach and Ambre resorts, which recorded growths in revenue of 14% and 13% respectively. Our resort in the Maldives, Kanuhura, had its first full year of operation since renovation. Although the resort gained good growth momentum during the year, it has not yet reached the required revenue level and thus incurred a significant loss, thereby materially impacting the overall Group results.

As a result of the opinion expressed by the external auditors during their review of the year end financial statements, the Rs 60 million profit on the sales of the IHS rooms which had been recognised in the nine months abridged results, has been subsequently reversed in the year end audited accounts. The external auditors' view is that this transaction should be accounted as a finance lease and that, as a consequence, the profits should be capitalised and amortised over the duration of the lease.

In line with the increased revenue, the Group's EBITDA margin improved from 16.2%
